Photographed Notes—These are of a dull brownish color, and the engraving indistinct or blurred. Photograph bills are never black. A sure test of any note suspected of being a photograph is to touch it with a solution of Cyanide of Potassium when it will immediately fade out and turn white if it be a photograph.

Every counterfeit that has ever been made has one or more mistakes in it. Our aim is to show what that mistake is.

50s raised from 5. Well done.

First National Bank, Red Hook, N. Y.
10s, imitation. Well done, and very likely to deceive.

First National Bank of Boston Mass.
5s, imitation. The engraving is fine and well done. The signatures of the President and Cashier are engraved. The Seal of the Treasury is a fac simile of the genuine. Examining the wording of the penalty on the lower corners of the back of the note. The bill is well calculated to deceive.

Flour City Nat'l B'k, Rochester, N. Y.
10s, imit. This bill is well executed, and a dangerous counterfeit. The Die on the upper right end is very pale and has a speckled appearance in the imitation instead of a dark and lined appearance, as in the genuine; observe the small curved line under word 'United' in the imitation it connects the letters UNI, the genuine does not. The signatures are engraved, and the bill is $\frac{1}{8}$ inch longer.

10s, imitation. (SECOND ISSUE.) Well done. The letters ROC in the word ROCHESTER, at the left end of the words FLOUR CITY, are quite indistinct in the counterfeit, but in the genuine they are clear and distinct.

Third National Bank, Philadelphia, Pa.
10, imit., letter B. Observe on upper right margin of the face of the bill the small words "National Currency" between small figures 10. The word "Currency" is spelled "Curreny." The spacing of the words "Will pay" and "to Bearer" are heavy in the genuine but very light in the counterfeit. Also, the "P" in "Philadelphia" in imitation, runs below the rest of the letters. Genuine does not.

First Nat'l Bank, Boston, Mass.

100s, imitation. The only way for the public to protect themselves will be not to take any \$100 National Bank Notes, except they are received from sources of well known respectability. One of the peculiarities of the counterfeit we have referred to is the "T" in the word maintain, on the right hand of the bill, is defective, and looks like the letter "I." The counterfeiter, however, can soon remedy this defect.

Lynn Park National Bank, N. Y. (No such bank.)
2s. Very well done.

Raised Bills.

10s, raised from 1s. Vig. of 1s, two female figures with hands clasped, one pointing upwards. 10s have figure of Franklin drawing electricity from the clouds, and on back of bill is DeSoto discovering the Mississippi. On back of 1s is the Landing of the Pilgrims. Well done.

Hghland Nat'l Bank, Newburgh, N. Y.
10s, imit. The green color is as good on the imitation as the genuine, and the dies, figures, and lettering on the back well done. The engraving of the pictures are as coarse as wood cuts, particularly the representation of De Soto discovering the Mississippi. The river is black and the canoes scarcely discernable without a magnifying glass, while in the genuine they are plain and distinct. The female riding on the eagle on the right end of the face of the bill has neither nose nor mouth, and no toes to her feet. There are five curves between States and Washington in the genuine, but only four in the imitation.

There are four curves under Treasurer in genuine, and only three in imit. Paper thin and white.

NEW COUNTERFEITS.

Tremont National Bank, Boston, Mass.

2s, imit. Well calculated to deceive.

Marine National Bank, N. Y. City.

2, imitation. The shading under the title of the bank is bad, otherwise the bill is very good and likely to deceive.

Nat Union Bank of Linderpark, N. Y.

2s, (NO SUCH BANK) well calculated to deceive

Tremont National Bank, Boston, Mass.

2s, imit., well done, and will easily deceive the unwary.

Gore Bank, Hamilton, Canada.

4s, a very close imitation—better refuse all bills of this denomination.

Mechanics' National Bank of Janesville, N. Y.—(NO SUCH BANK.)

10s. A very good looking bill—look out for them.

20s GREENBACKS.

A dangerous counterfeit. Green ink a good color, but the paper too yellow. Principal defect in the die. No clear and distinct lines around the 20. Looks more like a collection of several spots. Female well done, but the face rather coarser than the genuine.

Mutual National Bank, Troy, N. Y.

10s imitation. Well executed and likely to deceive. Shading of "United States" lighter than the genuine.

First National Bank, Boston, Mass.

5s, imitation. Well done. Signatures engraved.

First Nat'l Bank, Louisville, Ky.

5s, imitation. Columbus at the left end of the note has no left hand. Engraving rather coarse and heavy.

Second National Bank, Cincinnati, O.

10s, imitation. Well done.

Gold has had a downward tendency during the week. The sales by the Sub-Treasury have proved a success, and have worked to the satisfaction of the Treasury Department.

The Stock Market has been feverish and unsettled during the week with a decline in prices, although most of them have not, as yet, reached their real values. The money stringency of the past ten days has caused weak holders to close out, and stocks have passed into the hands of parties who are able to hold them. Governments are steady, with a good demand from investors at home as well as from abroad.

Look out for the Counterfeits.

The facilities for counterfeiting have largely increased since the adoption of the National Banking system, and the counterfeiters are taking advantage of it daily. The using of a uniform plate for each denomination, with only a difference of locality, warrants a liberal expenditure in getting up a good plate on any of the bills, so that when detected on any particular bank by simply changing the name and officers it can be used for the entire list. The counterfeiters are also altering the plates now out to banks that have no existence.

We would say to our patrons examine all bill carefully, no matter of what denomination, and see whether the bank they represent is really organized. By referring to our Reporter—which daily grows of more importance—you will gain all needful information. To such of our subscribers as detect new counterfeits or alterations we would be obliged for early descriptions of the same, or of any items of general interest.

Description of Genuine Bills.

NATIONAL BANK NOTES.

100s—vign. right end, arrival of the Sioux, 1838—left end, female sitting on a gun overlooking the sea, steamship in distance. Other side—surrender of General Burgoyne.

100s—right end, Capitol of Washington—left end, Gen. Scott entering the City of Mexico. Other side, Washington resigning his commission.

GREENBACKS.

1s, upper left end, a large oval portrait of Chase; 1 in green below—right end, 1 in a fancy die; signatures of Treasurer of United States and Register of Treasury on a green tint below; a strip of black lathe work between signatures.

2s, lower left centre, a large oval portrait of Alexander Hamilton—left end, 2 on a die; 11 below on a green die; right end, 2 on a die, signatures below on a green tint separated by two strips of black lathe work.

5s, in centre, FIVE DOLLARS across a green 5 and die work—right end, an oval male portrait; left end, female statue erect, with sword and shield, on a black ground work—fancy green back.

10s, upper center, eagle on a shield; 10 in green die each side; a strip of green lathe work below—right end, female erect by pedestal holding tablet, etc.—left end a large oval portrait of President Lincoln—fancy green back.

20s, in center, a female erect, with sword and shield, between figures 20 and two green dies; figure 20 each side—TWENTY DOLLARS across each end in green die work—fancy green back.

50s left centre, oval portrait of Hamilton; Treasury die in pink on right of die; 50 on die on each end of note.

100s, upper left centre, large spread eagle sitting on a rock; Treasurer's die in pink and 100 in green die on right of vign.—right upper corner 100 on a black die—lower left corner 100 on a black die.

500s, in centre, portrait of Albert Gallatin encircled in a green die—right end, 500; FIVE HUNDRED DOLLARS below—left end same as right.

1000s, in centre, portrait of Robert Morris in green circle—right end M with 1000 across it; ONE THOUSAND DOLLARS on a green die below—left end, same as right.

COUNTERFEIT GREENBACKS.

1s, (1st kind) can be readily detected by the inferior style of the engraving, particularly the head of Chase. The mouth is crooked, the eyes imperfect, and the hair on the top of the head resembles side hair brushed over to cover baldness. The back is of a lighter green than the genuine.

1s, (2d kind) the general appearance is very coarse and may readily be detected; green ink is very pale. On the imitation there is a BLACK STRAIGHT LINE under the red figures on the upper part of the bill; none in gen.

2s, imit., well executed. Coat of Hamilton badly done. The shirt bosom of Hamilton is very dark and uneven, but in the genuine white and plain. The shading of the words "UNITED STATES" light and broken.

5s, 10s, genuine notes without the red seal, and others reported without the usual number being printed upon them.

5s, imit., words "United States" heavily shaded. Gen. are clear, lightly shaded and plain. The words "Patented 20th June, 1857," under the words N. York are not on the counterfeit bill. All the counterfeits are letter A, and are $\frac{1}{4}$ inch shorter than the genuine.

On the new series of letter "A," around the figure of Liberty on left end is a plain black line. On the counterfeits, this line along the bottom of the figure running towards the right of the note forms two distinct lines, on gen. only one. But this

may be a counterfeiter's dodge to have it described and alter it afterwards.

5s, imit., this bill is well calculated to deceive, and the only difference we can detect is in the die on the right end enclosing the figure 5. The genuine has three black circles enclosing the 5. The imit. has only two, and on lower right end figure 8, and on left end series 90.

10s. Paper very light, and the green ink of a lighter shade. Dated March 10th, 1862.

10s alt'd from 1s, portrait of Chase on left.

10s imit. There are 18 small Xs on upper right margin, and only 16 on the genuine. The words "Printed by the National Bk Note Co." on lower left margin extends over 9 of the Xs on imit. end 8 on the genuine.

10s, imit., has 14 small x's on upper right margin—16 on left. The gen. has 15 x's each side of engravers name. Portrait of Pres. Lincoln is very coarse and pale looking; imit. are dated Washington, March 10, 1862, letter C.

20s, very close imit. of gen., the engraving is good, in the center figure the foot of the female can scarcely be seen. On the left end bottom are the words, "Payable at the Treasury of the U. S. at New York." The A's in payable are too small and uneven. The letter 'x' in the word 'The' is not crossed in the centre. The imprint is defective; the green ink is of too light a color.

50s, alt'd from 2s, portrait of Hamilton on left centre. The vignettes of the two-dollar and fifty-dollar Treasury note are the same. Ingenious persons are counterfeiting the body of the fifties and using the vignettes of the twos, producing a note that deceives experts.

50s, imit. observe the figures 50 on back of the bill around the margin, the 5 in the imit. runs into the 0, gen. does not. The word 'FIFTY' around the above 50 can scarcely be read. Words 'LEGAL TENDER' is very much blurred. Letter C dated March 8, '63. On the left lower corner the No 550 instead of 50 enclosed in one circle.

50s, imit., observe the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the flesh were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited. This difference is not readily observed unless the notes are perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on a green ground, of which the rim, in the genuine bill, is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appeared to be circles, may be easily discerned. In the counterfeit bill the border ornaments, containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles. The general appearance of the counterfeit gives no indication of true character.

100s, imit. the red figures are much larger than the figures of any Treasury Notes, the wings of the eagle are very coarse—the double rule running from it is heavier, and the curve twice as large, while there is a diagonal shading at the joint of the imprint with the rule, which does not appear on the genuine. On the right end of the back of the bill, the 100 in the circles are inverted, thus, 001. In the genuine this inversion is on the left end. The imprint, American Bank Note Co., is very uneven, and too large.

100s, imit., (2d kind) of the notes issued under the act of February, 1862, well executed. The spurious note is smaller, and the coloring on the back is paler than on the genuine bill. The words "one hundred dollars" on the right hand side of the counterfeit are smaller than on the genuine note.

100s, imit., (3d kind) the note is smaller than the genuine, the spread eagle is very coarse, and the shading of UNITED STATES is badly done. The bill is calculated to deceive.

COUNTERFEIT COUPONS.

The following are the words on the coupons:

"Acts of July 17 and August 5, 1861. The United States of America will pay to bearer fifteen dollars for six months' interest due 1st January, 1867, upon bond No. 785, for \$500. L. E. Chittenden, Register United States Treasury."

FIVE CENT COIN COUNTERFEITS
Are in circulation. They may be distinguished from the genuine by the softness of the metal

3d Issue.

50c. imit.; two kinds of the new long 50 cent currency. The imitation of one kind has DISINTEGRATED on upper right corner instead of DESIGNATED. The second kind has designated correctly spelt, but on the little American Shield, under the Eagle, there is a black line drawn across the upright bars of the Shield. Not so on the genuine.

25s, imit., are very pale and coarse. The letter C in cents on left end is smaller than the other letters, and too far off.

New Issue.

25s, imitation. Above the words "Treasury Department," on the bottom of the bill in the genuine there is a fine dotted line—the counterfeits have a straight line.

25s, imit., well executed, but may be detected by the absence of a period (.) after the word Treasurer under Spinner's name; the work is better than any we have previously seen and liable to deceive unless carefully examined.

25s, well executed; head of Chittenden; where it reads "Furnished only by the Assistant Treasurer" the Assistant is spelt "Assistata." In the genuine the shading of the letter "E" in "Five" is unbroken, while the counterfeit has a little notch in it.

50s, well executed. The engraving on the face of the note is excellent. The adveree is slightly blurred. The notes are an eighth of an inch narrower than the genuine.

50s, the "y" in "Colby's" name crosses a line of the coat in the genuine, but not in the counterfeit.

50s, the line of stars on conuterfeit between the figures "50" at the top and bottom of the back of the note have WHITE centres, while the entire stars on genuine are in green. The reading in black on the genuine note clear and distinct, while on the counterfeit the brouze is printed on the black, the words "FIFTY CENTS" being almost obliterated.

50s, well done. The last "e" in the signature of F. E. Spinner is omitted in some, and the (.) after print. on one end, and the d. after March 80.

50s. New and dangerous counterfeits of the last issue of the fifty cent fractional currency notes, which bear upon their face the head of Treasurer Spinner, have been detected by the Treasury Department. It can be detected by the absence of a period (.) after the word print on the right end, and also under the letter "d" in "March 8d," on the left end. The paper is thicker than that of the genuine notes, and the general appearance is calculated to deceive unless closely inspected.

Counterfeit Compound Interest Notes.

50s, imit., Compound Interest Notes, have a scratchy appearance, issue of July 15th, 1864. In the imitation the words "three years after date" on the top of the bill nearly touch the words "Treasury Department," while in the genuine there is a space of $\frac{1}{2}$ of an inch between.

2d. In the imit. the last button of Hamilton's coat is $\frac{1}{2}$ of an inch from the lower margin of the small 50s, while in the gen. the button touches the margin.

100s, Counterfeit 8 per cent. Compound Interest Notes. The engraving as well as the paper and the ink stand the comparison to the genuine. The "U" in "United States" touches the die of the "100" on the left upper corner; on the genuine there is a space of $\frac{1}{2}$ of an inch between.

TO OUR SUBSCRIBERS.

We are placing the imitations of National Bank Notes under the respective banks in the body of the Reporter, as the large number of counterfeits recently put in circulation take up more space than we have room for on first and second pages. Many of these counterfeits are so well executed, (especially those of the denomination of \$10 and \$100,) that it is almost impossible to detect them. We would say to our subscribers, examine carefully all bills on the National Banks, as the adoption of uniform plates for this currency adds extra facilities to counterfeitors, as a good counterfeit can easily be altered to any of these banks.

ADVERTISING RATES.

Terms per square of TEN lines TEN DOL-
LARS per month. Bankers Cards, FIVE DOL-
LARS each line, per year.

TO BANK OFFICERS.

Officers of Banks are respectfully invited to address us when we are inaccurate, also to inform us of any changes in the organization of their banks, changes in officers, &c.
